Independent Auditor's Report

Berkeley County Farmland Protection Board 229 East Martin Street Suite 300 Martinsburg, West Virginia 25401

To the Members of the Board:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the Berkeley County Farmland Protection Board, Berkeley County, West Virginia (the Board), as of and for the year ended June 30, 2017 and the related notes to the financial statements, which collectively comprise the Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' Government Auditing Standards. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Board's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Board's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Members of the Board Berkeley County Farmland Protection Board Berkeley County, West Virginia Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the Berkeley County Farmland Protection Board, Berkeley County, West Virginia, as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

The introductory section presents additional analysis and is not a required part of the basic financial statements. We did not subject the introductory section to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 12, 2018, on our consideration of the Board's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Board's internal control over financial reporting and compliance.

Berkeley County Farmland Protection Board **MANAGEMENT'S DISCUSSION AND ANALYSIS** For the year ended June 30, 2017 (Unaudited)

Our discussion and analysis of the Berkeley County Farmland Protection Board's ("Board") financial statements provides an overview of the Board's financial activities for the year ended June 30, 2017 in comparison to the year ended June 30, 2016. This discussion and analysis should be read in conjunction with the Board's basic financial statements.

FINANCIAL HIGHLIGHTS

The Board's mission is to secure perpetual conservation easements on farmland and open land in Berkeley County through the purchase or donation of easements from willing landowners, or through the fee simple acquisition of land. The funding for easement purchases and the related administrative costs comes from a real estate transfer tax of \$2.20 per \$1,000 of property transfer in Berkeley County, West Virginia. The Board also seeks to secure matching Federal funding from the U.S. Department of Agriculture and matching State funding from the West Virginia Agricultural Land Protection Authority. The number of acres put under easement annually depends upon the level of transfer tax receipts, the level of Federal and State matching funds and the Board's offering price for easements.

The Board makes commitments of funds annually for conservation easement acquisition and legal defense. The Board has no fixed debt other than amounts owed to another governmental entity for the sale of certain real estate. Repayments are made based on the collection of sales proceeds.

Real estate transfer tax revenues were \$1,314,902 in 2017 and \$1,187,496 in 2016. This represents an increase of \$127,406 or 11 percent from 2016 to 2017. U.S. Department of Agriculture grants were \$138,828 in 2017 as compared to \$0 in 2016. There were no West Virginia Agricultural Land Protection Authority grants in 2017 and 2016.

The Board had no donated conservation easements during 2017. Capital outlays for conservation easements amounted to \$895,434 in 2017 as compared to \$54,826 in 2016. Costs necessary to close and record an easement are capitalized as part of the easement costs. Administrative costs for the Board increased due to purchasing of easements and moving to another office, amounting to \$117,237 in 2017 and \$76,988 in 2016. Administrative costs have increased from approximately 6 percent of program revenues for 2016 to 9 percent of program revenues for 2017.

The Board anticipates the availability of federal and state matching funds to be limited in 2017 which will constrain Board easement acquisition.

GOVERNMENTAL AND FUND FINANCIAL STATEMENTS

The Board's only fund is a governmental fund (general fund) using the modified accrual basis of accounting. The general fund's Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance are presented showing conservation easements as capital outlay expenditures, along with fund balance committed by the Board for easement purchases not yet completed and for legal defense. A statement of net position is also presented where adjustments are made to capitalize easement costs and to present other long-term assets and liabilities.

Berkeley County Farmland Protection Board **MANAGEMENT'S DISCUSSION AND ANALYSIS** Tor the year ended June 30, 2017 (Unaudited)

GOVERNMENTAL AND FUND FINANCIAL STATEMENTS (continued)

The Board is a component unit of the Berkeley County Council with a separate legal existence. As well as being a unit of government, the Board is an IRS section 501(c)(3) organization empowered both by West Virginia State Code as well as the Internal Revenue Service Code to be a conservation organization with the special ability to hold perpetual conservation easements.

CONDENSED FINANCIAL INFORMATION

The assets of the Board typically consist of either cash or short-term investments, transfer taxes receivable, and capital assets in the form of conservation easements and fee simple acquisitions of property. For the fiscal years ended June 30, 2017 and June 30, 2016, the Board's policy was, to the extent possible, to commit or assign available funds toward the purchase of conservation easements. While fee simple acquisitions of real estate can be sold by the Board, the conservation easements are recognized as a particular public benefit to Berkeley County, West Virginia, the State of West Virginia, and to the Federal Government, the development rights that give rise to the conservation easement are extinguished by the Board and are prohibited from being sold by West Virginia Code. Unlike cash, investments, transfer taxes receivable, and real estate, these conservation easements have no future cash value to the Board.

	2017	2016	
Assets			
Cash and cash equivalents	\$ 3,824,129	\$ 3,284,418	
Transfer taxes receivable	141,463	211,839

Total assets	\$ 3,965,592	\$ 3,500,239	
Liabilities	\$ 15,091	\$ 26,247	
Fund Balance			
Nonspendable	\$ -	\$ 3,982	
Committed for easement purchases	1,534,530	1,451,713	
Committed for legal defense	30,494 3		
Assigned for program purposes	2,385,477 1,9		
Total fund balance	\$ 3,950,501	\$ 3,473,992	

GOVERNMENTAL FUND BALANCE SHEET/STATEMENT OF NET POSITION

Berkley County Farmland Protection Board **MANAGEMENT'S DISCUSSION AND ANALYSIS** For the year ended June 30, 2017 (Unaudited)

GOVERNMENTAL FUND BALANCE SHEET/STATEMENT OF NET POSITION (continued)

	2017	2016
Reconciliation to Statement of Net Position:		
Total fund balance	\$ 3,950,501	\$ 3,473,992
Conservation easements	26,298,029	25,368,110
Long-term note receivable	420,000	438,000
Due to other government - long-term	(140,000)	(146,000)
Accrued compensated absences	(2,754)	(1,468)
Deferred easement acquisition costs	17,841	52,326
Deferred outflows related to pension	29,418	-
Deferred inflows related to pension	(1,255)	-
- Net pension liability	(25,763)	
Total net position	\$ 30,546,017	\$ 29,184,960

Fund balance increased by \$476,509 or 14 percent. This increase primarily relates to the timing of easement closings and availability of matching funds. Capitalized easements increased to \$26,298,029. Conservation easements include expenditures required to close the easement (including survey, appraisal, baseline, and legal costs) and the appraised value of any easement donations. Four easements were closed during fiscal year 2017. Zero easements were closed during fiscal year 2016. Assigned net position generally represents amounts not yet invested in or committed for easements or expended for administrative costs. Assigned net position increased by \$397,674 from 2016 to 2017.

Accrued compensated absences	(1,286)	(1,468)
Change in net position	\$ 1,355,845	\$ 1,142,242

Federal income is primarily from the U.S. Department of Agriculture under the Agricultural Conservation Easements Program. Federal income is typically 50 percent match funding for either State or local easement funding. Awards under this program are recognized as revenue when the funds are utilized to purchase a conservation easement, regardless of the fiscal year the funds were awarded. USDA awards were \$138,828 in 2017 and \$0 in 2016.

State grant income is primarily from the West Virginia Agricultural Land Protection Authority. These grants have provided a 50 percent matching of funds to the 50 percent of funding being provided by the U.S. Department of Agriculture. There were no State Agricultural Land Protection Authority awards in 2017 and 2016.

Berkley County Farmland Protection Board MANAGEMENT'S DISCUSSION AND ANALYSIS For the year ended June 30, 2017 (Unaudited)

CONSERVATION EASEMENT ACQUISITION

Under the Berkeley County Farmland Protection Program, easements are purchased in priority ranking according to a published criteria awards system. Such properties are funded based on the landowner's asking price as long as the price is not above the fair market value of the easement as determined by a certified appraiser retained by the Board and does not exceed \$6,500 per acre. The only exception to the ranking system is when 50 percent or more matching funds are awarded to an easement through USDA or other grants. During fiscal year 2017, four easements were acquired, and two properties had USDA matching funds. During fiscal year 2016, no easements were purchased.

The average value of a purchased conservation easement was \$3,099 per acre in 2017. The Board caps the payout per acre at \$6,500. In addition to the purchase price, the average amount expended in order to complete an easement (excluding staff time) was approximately \$15,627 in fiscal year 2017.

CONTACTING THE BOARD

This financial report is designed to provide the citizens of Berkeley County as well as our Federal and State funding sources the Board's accountability for the funds it receives. If you have questions about this report or need additional information, contact the Board at (304) 260-9250 or write to us at 229 East Martin Street, Suite 300, Martinsburg, WV 25401.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2017

Net Change in Fund Balance - Total Governmental Funds		\$ 476,509
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report easement acquisition costs as expenditures. However, the cost of those assets are either capitalized or deferred and reported as assets in the Statement of Net Position.		
Capital outlays	\$ 895,434	895,434
Proceeds from seller note receivable are shown as revenues in the governmental fund financial statements but are a principal reduction in note receivable in the Statement of net Position.		(18,000)
Certain pension expenses in the statement of activities are recognized on the accrual basis of accounting in accordance with GASB 68		
Amount of pension expenditures at fund level PERS Amount of pension expenses recognized at government-wide level PERS	5,729 (2,541)	3,188
Expenses in the Statement of Activities that do not require the use of current financial resources are not reported as expenditures in governmental funds.		
Accrued compensated absences increased by this amount in the current period.		 (1,286)
Net Change in Net Position of Governmental Activities		\$ 1,355,845

NOTE1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Berkeley County Farmland Protection Board ("Board") conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of significant accounting policies:

Reporting Entity

The Berkeley County Farmland Protection Board, a component unit of the Berkeley County Council, was created by West Virginia Code §8-12 with the primary purpose to acquire easements from land owners whereby the property is dedicated to preservation for future years.

The Board is governed by a seven-member board which consists of six members appointed by the Berkeley County Council and one representative from the Berkeley County Council. The Board received the majority of its funding from property transfer taxes provided by the Berkeley County Council and capital contributions.

The accompanying financial statements present the reporting entity as required by generally accepted accounting principles. In determining whether to include a governmental department, agency, commission or organization as a component unit, the government must evaluate each entity as to whether they are legally separate and financially accountable based on the criteria set forth by the Governmental Accounting Standards Board (GASB). There are no component units required to be reported as part of the Board's financial statements.

Government-Wide and Fund Financial Statements

For this single purpose government, combined government-wide and fund financial statements are presented. The government-wide section of the financial statements (i.e., the statement of net position and the statement of activities) reports information on all non-fiduciary activities of the primary government's *Governmental activities*, which normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) property transfer taxes, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular function. Other items not properly included among program revenues are reported instead as general revenues.

Measurement Focus. Basis of Accounting. and Financial Statement Presentation

The government-wide sections, which consist of the statement of net position and statement of activities, are reported using the *economic measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement Focus. Basis of Accounting. and Financial Statement Presentation (continued)

The governmental fund sections, which consist of the general fund balance sheet and general fund statement of revenues, expenditures, and changes in fund balance, are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectable within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Board considers revenues to be available if they are collected within sixty days of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Property transfer taxes associated with the current fiscal year are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal year.

The government reports the following major governmental funds:

The General fund is the Board's only operating fund. It accounts for all financial resources of the Board.

Restricted Assets

Restricted assets are generally liquid assets generated from revenues that have third party limitations on their use. If restricted assets are available, the Board will typically use restricted assets first, as appropriate opportunities arise, but reserve the right to selectively defer the use thereof to a future project. There were no restricted assets at June 30, 2017.

Cash and Cash Equivalents

The Board's cash and cash equivalents are considered to be cash on hand, demand deposits, and certificates of deposit.

Property Transfer Taxes Receivable

Property transfer taxes receivable are considered fully collectible as they consist of amounts provided to the Board by the Berkeley County Council.

<u>Estimates</u>

The preparation of financial statements inconformity with accounting standards generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Compensated Absences

The Board's policy is to permit employees to accumulate earned but unused vacation benefits. The Board fully recognizes the liability related to compensated absences in the government-wide financial statements. Accrued compensated absences are not reported in the fund financial statements because they do not require the use of current financial resources. Accrued compensated absences amounted to \$2,754 at June 30, 2017.

NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fund Balances

In accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the Board classifies governmental fund balances within the following categories: Nonspendable fund balance, which includes amounts that cannot be spent because it is not in spendable form; restricted fund balance, which includes amounts constrained for specific purposes that are externally imposed by the resource providers: committed fund balance, which includes amounts constrained for specific purposes that are internally imposed through formal action of the Board; assigned fund balance, which includes amounts intended to be used for specific purposes that are neither restricted or committed, however, assigned by non-formal action of the Board; and unassigned fund balance, which is the residual classification for amounts in the general fund that have not been classified within the other categories.

Capital Assets and Depreciation

Capital assets are defined by the Board as assets with an initial, individual cost of \$25,000 or more and estimated to have a useful life in excess of one year.

Capital outlays are recorded as expenditures of the general fund and as assets in the government- wide financial statements. All of the Board's capital assets are deemed to be non-depreciable.

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset useful lives are not capitalized.

Deferred Costs

Deferred costs represent appraisal, survey, baseline, and legal costs related to unexecuted conservation easements. These costs are transferred to capital assets once conservation easements are executed.

Accrued Costs

Accrued costs represent expenses for conservation easement acquisition that relate to executed easements but are not yet due and payable.

Net Position

Governmental equity isclassified as net position (governmental activities) and displayed as follows:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of any related debt.

Restricted net position - This amount is restricted by external creditors, granters, contributors, and laws or regulations of other governments.

Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Non-exchange Transactions

The Board follows GASB Statement No. 33, Accounting and Financial Reporting for Non-exchange Transactions (Statement 33), which establishes accounting and reporting guidelines for government entities that gives (or receives) value without directly receiving (or giving) equal value in return. The Board receives voluntary non-exchange transactions through various operating and capital grants from federal and state agencies.

NOTE 2 - DEPOSITS AND INVESTMENTS

Risks and Investment Limitations

Custodial risk is the risk that in the event of a bank failure, the Board's deposits may not be returned to it. As of June 30, 2017, the Board's cash and cash equivalents were either insured by Federal Depository Insurance or fully collateralized by the financial institutions.

State statutes authorize the Board to invest in the State Investment Pool or the Municipal Bond Commission or to invest such funds in the following classes of securities: obligations of the United States or any agency thereof; certificates of deposit (which mature in less than one year); general and direct obligations of the State of West Virginia; obligations of federal mortgage associations; indebtedness secured by first lien deeds of trust for property situated within this state if the payment issubstantially insured or guaranteed by the federal government; pooled mortgage trusts (subject to limitations); indebtedness of any private corporation that is properly graded as in the top two or three highest rating grades; interest earning deposits which are fully insured or collateralized; and mutual funds registered with SEC which have fund assets over three hundred million dollars. The Board has no investment policy that would further limit its investment choices.

State statute limitations concerning the aforementioned investments include the following: at no time can investment portfolios consist of more than seventy-five percent of the indebtedness of any private corporation nor can the portfolio have over twenty-five percent of its portfolio consisting of the indebtedness of a private corporation's debt which matures in less than one year; at no time may more than nine percent of the portfolio be invested in securities issued by a single private corporation or association; and at no time can more than sixty percent of the portfolio be invested inequity mutual funds. The Board has no policy that would further limit the amount that they may invest in any one issuer.

NOTE 3 - NOTE RECEIVABLE

On April 4, 2013, the Board sold certain real estate for \$500,000 with the Board assuming a purchase money note receivable for \$495,000. The note bears no interest and is for a 5-year term requiring \$1,500 monthly payments commencing May 6, 2013 and continuing until April 6, 2018. All unpaid principal is due April 6, 2018.

Maturities of notes receivable are as follows:

Year	Principal
2018	\$420,000
Total	\$420,000

NOTE 4 - BUDGET

The Board is not legally required to prepare an annual budget but elects to do so for internal control and monitoring purposes.

NOTE 5 - CAPITAL ASSETS

Capital Asset activity for governmental activities for the fiscal year ended June 30, 2017 was as follows:

	Balance at June 30, 2016	Additions	Disposals	Balance at June 30, 2017
Capital assets not being depreciated:			•	
Conservation easements	\$25,368,110	\$929,919	\$0	\$26,298,029
Total capital assets not				
being depreciated	25,368,110	929,919	0	26,298,029
Total governmental activities				
Capital Assets	\$25,368,110	\$929,919	\$0	\$26,298,029

Conservation Easements

Conservation easements purchased by the Board are recorded in the statement of net position at cost plus any additional costs incurred to acquire the easements. Easements donated to the Board are recorded at the fair market value of the easement plus any additional costs incurred to acquire the easements. According to the WV State Code, these easements may never be sold. The easements can be transferred to a comparable conservation organization if the Berkeley County Farmland Protection Board is dissolved by the Berkeley County Council. The transfer must be approved by the Berkeley County Circuit Court.

NOTE 6 - DUE TO OTHER GOVERNMENT

By agreement between the Board and the City of Martinsburg, the City of Martinsburg is entitled to one third of the sales price from the Board's sale of certain real estate. On April 4, 2013, the Board sold this real estate for \$500,000 by assuming a purchase money note for \$495,000 and receiving \$5,000 in cash. The City of Martinsburg is to be paid \$166,667 based on the terms of the sale (see note receivable).

The amount due the City of Martinsburg at June 30, 2017 is \$140,000 and is to be paid on a quarterly basis.

Maturities of amounts due to other governments is as follows:

Year	Principal
2018	\$140,000
Total	\$140,000

NOTE 7 – PENSION PLAN

Board employee participate in the West Virginia Public Employees Retirement System (PERS). This plan is a cost sharing multiple-employer public employee retirement system created by the State of West Virginia.

All eligible full-time employees must participate. Among those employees not eligible for plan membership are members and retirees of other state retirement systems. Employees hired before July 1, 2015 may retire with full benefits at age 60 with a minimum of 5 years of credited service or when the member's age plus his/her years of service is equal to or greater than 80 provided that the employee has reached age 55. An individual with 5 or more consecutive years of service who terminates employment prior to retirement can choose to leave contributions with the system and will be eligible for retirement benefits at age 62. Members are entitled to a yearly retirement benefit of 2% of their highest averaged salary over 3 consecutive years out of the last 10 years of earnings multiplied by the years of service. Payments are made monthly to the retiree and the retiree can choose from 3 retirement options.

In accordance with Chapter 5, Article 10 of the West Virginia State Code, employees hired prior to July 1, 2015 are required to contribute 4.5% of their annual salary to PERS with the Board contributing 13.5%. Employees hired after July 1, 2015 are required to contribute 6.0% of their annual salary with the Board contributing 13.5%.

	Emplo	yer	Percentage
Year	Contribu	itions	Contributed
2017	\$ 5	,729	100%
2016	\$ 5	,214	100%

Further benefit, trend and other information regarding this plan is presented in the PERS annual financial report, which may be obtained by writing to the Public Employees' Retirement System, 4101 MacCorkle Avenue SE, Charleston, WV 25304.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At fiscal year-end, the Board reported the following liabilities for its proportionate share of the net pension liabilities. The net pension liabilities were measured as of June 30, 2016, and the total pension liability used to calculate the net pension liabilities were determined by the actuarial assumptions and methods described in the appropriate section of this note. The Board's proportion of the net pension liabilities was based on a projection of the Board's long-term share of contributions to the pension plans relative to the projected contributions of all participating governments, actuarially determined. Fiscal year 2016 was the first year the board joined the Public Employee Retirement Service, so no increase or decrease in proportion measured is reported.

	PERS
Amount for proportionate share of net pension liability	\$25,763
Percentage for proportionate share of net pension liability	0.002803%
Increase/(decrease)% from prior proportion measured	N/A

For the year ended June 30, 2017, the Board recognized the following pension expenses:

	PERS
Pension Expense	<u>\$2,541</u>

NOTE 7 – PENSION PLAN (continued)

The Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$ 2,148	\$ -	
Differences between expected and actual earnings on plan investments	8,096	-	
Changes in proportion and differences between government contributions and proportionate share of contributions	13,445	-	
Differences in assumptions	-	1,255	
Contributions subsequent to the measurement date	5,729		
	\$ 29,418	\$ 1,255	

The amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30	
2017	\$(5,608)
2018	(5,609)
2019	(5,608)
2020	(5,609)

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2016 for all plans, using the following actuarial assumptions, applied to all periods included in the measurement.

Inflation Rate	3.00%
Salary Increases	3.00% - 6.00%
Investment Rate of Return	7.50%

Mortality rates for non-disabled participants were based on the 1983 Group Annuity Mortality Table for males and the 1971 Group annuity Table for females, as appropriate. Mortality rates for disabled participants were based on the 1983 Group annuity Mortality Table for Males and Revenue Ruling 96-7 for Females.

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2016.

NOTE 7 – PENSION PLAN (continued)

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimate of arithmetic real rates of return for each major asset class included are summarized in the following chart:

Investment	ment Long-term Expected Real Rate of Return	
U.S. Equity	7.0%	27.5%
International Equity	7.7%	27.5%
Core Fixed Income	2.7%	7.5%
High Yield Fixed Income	5.5%	7.5%
Real Estate	5.6%	10.0%
Private Equity	9.4%	10.0%
Hedge Funds	4.7%	10.0%
-		100.0%

Discount Rate

The discount rate used to measure the total pension liability was 7.5 percent for PERS. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that the government contributions to all plans will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rate as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1 - percentage point lower or 1 - percentage point higher than the current rate:

	1% Decrease	Discount 1% Rate Incre	
Decad's monorticants share of the act reasing	6.5%	7.5%	8.5%
Board's proportionate share of the net pension liability	\$46,635	\$25,763	\$8,037

NOTE 8 - OTHER INFORMATION

Risk Management

The Board is exposed to various risks of loss related to torts and theft for which the Board carries insurance for these various risks.

Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to financial and/or compliance audits by the grantors or their representatives. Any disallowed claims, including amounts already collected, may result in a liability to the Board.

NOTE 9 - SUBSEQUENT EVENTS

The Board has evaluated all subsequent events through January 12, 2018, the date the financial statements were available to be issued.

NOTE 10 – PRIOR PERIOD ADJUSTMENT

The Board recorded a prior period adjustment to the net position at June 30, 2016 as follows:

Net Position – Beginning of Year	Government- Wide \$ 29,184,960
Restatement: Record GASB 68 Entries as of June 30, 2016	5,212
Net Position – Beginning of Year, as Restated	<u>\$ 29,190,172</u>

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Berkeley County Farmland Protection Board Berkeley County, West Virginia 229 East Martin Street Suite 300 Martinsburg, West Virginia, 25401

To the Members of the Board:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities and the major fund of the Berkeley County Farmland Protection Board, Berkeley County, West Virginia (the Board) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the Board's basic financial statements and have issued our report thereon dated January 12, 2018.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Board's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Board's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Board's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Members of the Board Berkeley County Farmland Protection Board Berkeley County, West Virginia Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

Compliance and Other Matters

As part of reasonably assuring whether the Board's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under Government Auditing Standards.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Board's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Board's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
