***Also Species should be listed as Federal Endangered, Federal Rare, or WV DNR Heritage Program Species of Concern.**

7. Proximity to other Protected Properties and Working Farms (Circle only one)

Proximity	points		
Adjoins perpetual Conservation Easement or protected public land	80		
Within 1/2 mile of perpetual conservation easement or protected public land	40		
Adjoins farm with farm tax valuation	20		
Within 1/2 mile of farm with farm tax valuation	10		
Total Possible	80	Total	0

8. Sales Potential (Circle only one)

Suitable lot size as determined by the County Planning Commission	points		
Suitable for lot sizes less than 20 acres	30		
Suitable for lot sizes greater than 20 acres	15		
Property unable to be developed (disqualifies property from the program)	0		
Total Possible	30	Total	0

***Need confirmation letter from County Planning Office**

9. Public Water/Sewer Accessibility

Distance from utility	points		
No public sewer and water available or planned within 2000' of property	30		
Public water or sewer available within 300'-1999'	15		
Public water or sewer present or planned within 299'	0		
Total Possible	30	Total	0

10. Price per acre index:

Please list your offering price per acre for the purchase of an Easement on your property. The total points awarded in this document will be divided by the offering price per acre to produce an index number for the property. The higher the index number the better your property will rank at the County level. Thus a high point score and a low offering price will give you a better index number.

Price per Acre	Total points (525 possible)	HCFPB Use	Index number (HCFPB use)
	0		

Special Grants

In the event that private, local, state or federal monies become available to purchase a particular category of property or an Easement, the Farmland Protection Ranking Criteria may be waived by the HCFPB.

Total Possible 525
